

PRIVACY POLICY

WANAS Start

1. General information

1. WANAS Start Application has been created and is distributed by WANAS Marek Waszkiewicz located in 37-400 Nisko ul. Nowa 29 POLAND, NIP: 8652137290, REGON: 180230980, further as "WANAS".
2. WANAS can be contacted via e-mail: serwis@wanas.pl, by phone: +48 535 958 222, by post: 35-232 Rzeszów ul. Miłocińska 4B POLAND.
3. WANAS Start Application is intended to configure HVAC controllers, that are produced by WANAS, (further as: „Controller”) by connecting Users device with WANAS Start Application.
4. WANAS Start Application privacy policy (further as “Policy”) aims to provide information on using data and information by WANAS Start Application considering person using WANAS Start Application (further as “User”) or device on which it has been installed (further as: “Users Device”), and privileges to use necessary components of Users Device by WANAS Start Application.

2. Rules of using data and information

1. WANAS Start Application does not gather or use ANY personal data of User, that is information on identified or possible to identify natural person. WANAS Start Application does not recognize Users identity.
2. The only information that is being stored in WANAS Start Application that user can manage as desired are configuration snapshots created by user and preferences of the application, those preferences include only:
 - WANAS Start Application theme,
 - WANAS Start Application preferred temperature unit.

This data is used in order to configure WANAS Start Application behavior and look the way the User has decided it to be.

3. Rules of using privileges to Users Device components

1. For proper functionality of WANAS Start Application it is necessary that WANAS Start Application uses components of Users Device.
2. Before using these components WANAS Start Application will request for granting privileges to Users Device components.
3. To use the WANAS Start Application following Users Device components are necessary:
 1. Bluetooth, necessary for establishing connection and communication between Users Device and selected controller,
 2. Location of Users Device, only necessary for finding surrounding BLE (Bluetooth Low Energy) devices (including when application is closed or not in use). The physical location of the device is never determined or used for any purpose,
 3. Writing and reading of device memory (write external storage, read external storage), necessary for:
 - managing software update files for the controller,
 - creating and managing configuration snapshots,
 4. Vibration, necessary for informing user about copying app special password.

4. Final provisions

1. Privacy policy can be amended by WANAS
